Re: Clayton Chemical Site

Dear Mr. Turner:

Please accept this letter on behalf of EnPro Industries, Inc. in response to the USEPA's General Notice of Potential Liability dated September 27, 2005 regarding the Clayton Chemical Site. Please be advised that EnPro will cooperate provided we can verify that waste from one of our divisions was sent to the site. Based upon the information received, it appears that the Quincy Compressor division of one of our subsidiaries may have sent waste to the site. We are in the process of investigating our connection with the site.

Please do not hesitate to contact me (704-731-1525) or Joe Wheatley (704-731-1529) if you have any questions or comments regarding this matter.

Very truly yours,

John R. Mayo
